*If you are not growing some good Dahlias
you are missing one of the real joys of life.*

KNOLLWOOD GARDENS
WINSTON-SALEM, NORTH CAROLINA

TO OUR CUSTOMERS AND FRIENDS

Sincerely do we hope that you are having a wonderful season and that every dahlia purchased from us will make you glad with its lovely blooms. There is no other flower that will bring you so much real pleasure as some good dahlia and if the season was not good in your section do not let it deter you from planning to grow more and better dahlias next year. Forget your loss and plan for another season.

There is a story of a wise man named Hakeem who lived in old Bagdad long, long ago. To him the people turned for advice for he was a very wise and truthful old man. Among his many callers was a young man who had spent his money recklessly. He asked Hakeem what he must do to receive the most for his money, and this was Hakeem's reply:

"A thing that is bought or sold has no value unless it contains that which cannot be bought or sold. Look for the priceless ingredient."

The young man was puzzled and asked "What is this priceless ingredient?"

Wise old Hakeem answered: "My son, the Priceless Ingredient of every product in the market place is the honor and integrity of him who makes it."

All of us agree that the wisdom of old Hakeem many centuries ago is the wisdom of wise buyers today and it is our sincere effort to so deal with each and every patron that Knollwood products in the market place have honor and integrity to back them up.

In the fall is the time to buy dahlias. You can save much more than enough to justify the advanced expense or can buy almost twice as many and we do advise ordering early that you may secure the ones you really want. We list some good ones—the kind that will make you glad and at prices you cannot afford to miss. Delivery of good, true to name stock that will grow, else we gladly make replacement, will be made in the spring at our risk of carrying the stock through the winter, or, if you prefer fall delivery you take the risk of storing.

In the event you cannot visit Knollwood we hope you may see the dahlias growing elsewhere but if you will ask us concerning any variety that may appeal to you we will tell you truly just what it has done for us. In this way you may save buying something that might prove a disappointment.

KNOLLWOOD GARDENS,

"If more Americans were Dahlia growers I am sure there wouldn't be so much talk of a pessimistic nature, for when two or three real dahlia hobbyists get together, pessimism goes out the back door."—Warren M. Maytrott, President American Dahlia Society.

There are no flowers that will bring you so many friends or so much real pleasure as the dahlia.

The dahlia is indeed the Queen of all flowers. Grow some and get that thrill 'tis sure to bring.
